Profile Summary

I am an enthusiastic UI/UX Designer specializing in app and web design, prototyping, and user research. Skilled in Figma and Adobe Illustrator, I focus on creating intuitive and user-centered digital experiences that combine creativity with functionality. Passionate about solving design challenges and exploring new ideas, I strive to deliver meaningful and impactful solutions that enhance usability and user satisfaction in real-world projects.

Technical Skills

Designing Tools:	Figma, Adobe Illustrator, Canva, Framer, Adobe Photoshop
Programming Languages:	HTML, CSS, Java Script
AI Tools:	Dora AI, ChatGPT, DeepSeek, Claude
Other Tools:	VS Code, Lucid Charts

Professional Experience

Atribs Software Systems Pvt Ltd

Chennai, India*UI/UX Designer Intern*

06/2025 – 08/2025

- Assisted in designing and developing a responsive company website, focusing on clean layouts, intuitive navigation, and an engaging user experience.
- Created logos and visual brand elements that aligned with the company's identity and enhanced its digital presence.
- Conducted user research and usability testing to understand user needs, pain points, and preferences for the new company website.
- Translated research insights into wireframes and interactive prototypes using Figma, helping the team visualize and refine design ideas effectively.
- Collaborated with team members to improve UI consistency and accessibility, ensuring a seamless and user-centered design experience.

Projects

Velmora Gaming Website [Figma]

[Link](#)

- Designed a cinematic survival game interface in Figma with a golden-black theme inspired by myth and mystery.
- Created interactive UI/UX layouts including journey maps, gear systems, and level progressions for an immersive gameplay experience.
- Published a complete Behance case study showcasing visual design, storytelling flow, and user interaction for the game Velmora.

Parallax Animation [Figma]

[Link](#)

- Designed and created a parallax animation for the Mercedes-Benz G-Wagon using Figma.
- Enhanced visual storytelling and improved user engagement through dynamic motion effects.
- Demonstrated strong skills in interactive design and motion design principles.

Sakthi Arts and Crafts [Figma]

[Link](#)

- Developed a visually immersive UI/UX concept for “**Sakthi Arts**”, creating a digital platform that highlights artistic craftsmanship through refined and elegant interface design.
- Utilised Figma to design structured layouts and interactive prototypes, ensuring smooth navigation and a cohesive visual storytelling experience across the platform.
- Focused on user-centric design elements—colour harmony, typographic hierarchy, imagery, and spacing—to strengthen brand identity and enhance overall usability.
